Stylize – Beyond borders

Beyond borders

Stylize brings together that what's rarely been done before. Going against the forces of gravity, they fuse Hip-hop and other dance forms such as Modern-Jazz and Tap, into their highly entertaining and 'stylized' choreography. Going beyond borders to enthrall every stage and fascinate audiences with their unique art of storytelling. Enter their world of motion and movement, where every word is a gesture driven by the pure essence of rhythm. Original and exciting with an eminent flair for quality to progress and to evolve. Be it for an audience, or for art, or simply for committing the beautiful execution of movement.

Stylize convincingly brings a unique show concept to its worldwide fan-base. Their popularity is continually growing due to appearances on highly popular Television Shows and extended engagement large-scale production contracts. There is still a lot of potential for growth and networking with the public, which Stylize is determined to do.

Although the Stylize members come from diverse backgrounds, they have found each other on one common ground: Dance.

With its unique style-mix and musical interpretation, Stylize has created something unprecedented. This innovation in dance Stylize would like to continue expanding, inspire fellow dancers and encourage others to look beyond the horizon.

The awareness level and degree of popularity will systematically be increased by means of participating in international competitions and showcases. Further to that, Stylize is planning various projects such as an online-series and a number of film and theater projects.

Along with all the projects Stylize has set itself the goal to conquer the big stages of this world. A great challenge, but with the exceptional talents and high motivation of each Stylize member, this reachable goal is in the not too distant future.
